Subject RE: Circuit City 3724 - Door Repairs

Hey Chad

I apologize for not providing you with an update in the past few days, things have been really crazy around here. We spoke with our door vendor today. He checked with the manufacturer on the parts and they told him another week. He gave them a very hard time because the parts were due in this week, but they stated there is nothing they can do as certain parts for the door are on back order. We are hoping these arrive early next week so we can complete this job for you in a timely manner. I am out of the office tomorrow but I will have my associate follow up with the vendor to see if there is anything we can do.

Thank you!

Hey Chad

OK we spoke to the technicians and they clarified the quotes for us. The first quote is for the customer pick up doors and they informed us that the motor/gearbox is shot and quote #1 is to perform those repairs. The doors are working manually right now but this work will need to be done to ensure proper operation going forward. Please let me know if you would also like to proceed with this option.

The doors have been ordered for the exterior entrance and will arrive within 10-14 business days. I will keep you posted.

Thank you very much!

Jay.

Please proceed with option # 2; replacement (\$8623.21). According to this proposal the work will be completed on the main entrance automatic doors, I assume that the other doors are functioning properly and are not in need of repair?

I need to verify your remit to address is still:

If not, then I will need to get an updated W-9 form.

Subject #852 Quote

Hey Chad

First I wanted to apologize for the delay on this quote. It normally doesn't take us this long. However, we have received and attached for your review. Please note that we are just waiting for the make/model on the panic bar so we can price check it for you. Lastly, if time allows we would like to obtain a 2nd opinion for you. Please let me know your thoughts and we will be happy to help.

Thanks!
